SUPERINTENDENT'S REPORT

To the School Board and Citizens of Swanzey:

I beg leave to submit herewith my third annual report:

BUILDINGS AND GROUNDS. Since my last report and in pursuance of the progressive policy of the board another great stride has been made in the improvement of the school property. The Cutler, Factory and East Swanzey schools present a more attractive appearance after receiving their two coats of fresh paint. New seats were purchased for the primary rooms at the Cutler, Factory and East Swanzey schools. At Number 9 enough land was purchased to make one acre, thus providing the much needed playground at that point. This property has been surrounded by a wire fence. This is a fine record of progress toward bringing the physical equipment up to standard.

I would respectfully recommend for your consideration the following projects for the coming year:

1. Inside and outside painting of the Number 9 school building.
2. One coat of paint for the Center school.
3. Inside painting at the Westport school.
4. A suitable walk at the Center so that pupils may get in and out without wading through water and mud.
5. New seats for the grammar room at East Swanzey.

The first three of these are contemplated in the school budget. The last two are presented by special articles in the warrant which I trust will receive favorable action at the district meeting.

BUDGET. The budget presented for your consideration this year is approximately \$1,000 more than last year. I believe, however, that now we have reached a stabilized budget.

By that I mean an appropriation that will adequately support your schools with a fairly high degree of efficiency, with little deviation from year to year. In late years the increase has been due very largely to statutory items over which the board has no control. The principal item of increase has been for high school tuitions as will be seen from the following table:

For the fiscal year ending June, 1925, the cost was \$2,700.00.

For the fiscal year ending June, 1926, the cost was \$3,443.95.

For the fiscal year ending June, 1927, the cost was \$4,366.14.

For the fiscal year ending June, 1928, the estimated cost is \$5,200.00.

This marked increase has been due to two causes, first the increase in the number of pupils attending high schools, second the increase in the cost of tuition at Keene High School from \$70.00 per year to \$83.33. I look for no material increase in the number of high school pupils and no great increase in the rate of tuition. Another item of increase this year is \$102 increase in the per capita tax. A third item, and the only one controlled by the board is under the item of Janitors' Salaries. I have long been of the opinion that there should be a man as janitor at the Cutler school. I feel very confident that the saving in fuel and repairs will more than offset the increase in salary. To my mind the results in the improved care of the school rooms, boiler and out buildings and the uniform temperature of the building has added so greatly to the efficiency of both teachers and pupils that the change has more than justified our expectations.

HEALTH. All children have had a careful physical examination under the direction of Dr. A. W. Hopkins, assisted by Miss Lang the district nurse. The results are shown in the tabulated form on another page. Still there are large numbers with defective teeth and 75 children are credited with

hypertrophied tonsils and adenoids. All of these defects are easily remedied and yet they undermine the health of the children and success in school work is thereby seriously conditioned. Through the cooperation with the Elliot Community Hospital Swanzey children have the privilege of the clinical facilities at that institution and tonsils and adenoids are taken care of at a cost so small as to be practically negligible. I trust parents in increasing numbers will avail themselves of this unusual opportunity. If interested consult the teacher in your community, Miss Lang or the Superintendent.

Some children have been vaccinated once without effect, a few twice but in order to comply with the provisions of the law, they must be effectively vaccinated or be inoculated three times without effect. Personal notice will be given later to parents of such children so that all may comply with the law during the summer months.

Under the direction of the State Board of Health, Division of Child Welfare, a child health conference was held in the different sections of the town for the purpose of giving every parent a chance to have their children under school age given a complete physical examination. One hundred and eleven children were taken to the conference. Your local doctor was assisted by a physician from out of town. This yearly examination is a definite service which the state is giving to every town for the promotion of better health among the children of preschool age.

The average attendance has been better for the year but still at East Swanzey the attendance is poorer than elsewhere. Frequent nonattendance of two or three children may spoil the record for a whole school.

You have an efficient and conscientious staff of teachers and I believe the work of teachers and pupils compares favorably with that of other towns in our state.

With grateful appreciation to the board, to teachers and pupils and to the parents and patrons of our schools, for their loyalty and support and for the manifest interest in the cause of education, I am.

Respectfully yours,

WESLEY H. DOUGLASS,

Superintendent of Schools.

Winchester, N. H., February 17, 1928.

A prayer for Schools—O God, Thou hast put into our hands the future of the race. We are made coworkers with Thy spirit in creating the world that is to be. Thou hast put every new generation in the lap of the old, that there may be continuity of growth. Awaken us to our responsibility. Stir us up to our own incomparable privilege. Make keen within us the conviction that we have no work more vital to do than to teach. Reveal to us the school as the heart of the world's work. Vast problems press upon us. The world is upturned. The masses seethe in the ferment of untried theories. Yet the way is so simple! It lies through the child. The road to the Golden Age runs through the schoolhouse. There is no reform however farreaching, no establishment of justice, however revolutionary, that might not better be accomplished by patience through the instruction of the children, than through the schemes of politics or the violence of war. Arms and disorder, destruction and overturning, are man's way. The school is Thy way. Lay upon the conscience of every teacher the divinity of his employ. Give him the enthusiasm of his opportunity. Show him the beauty, the majesty, of his calling, the marvel of his art, the proper pride of his craftsmanship! Make every parent realize that the best gift in his power for the child is the school! Lay deep in every child's heart an unshakable ambition to learn, to know, to come to mastery! And unfold to us increasingly what education means! Shake from us the ghost grip of the past, the narrowing hold of tradition, while we still preserve what is good. Deepen, broaden, enlarge our conception of the school. Make us glad to spend more for it, as the best of all investments for the security of the world. And show us that there can be no salvation for the race that does not first mean salvation for the child, by striking from his brain the chains of ignorance, from his heart the iron rim of superstition, and from his hands the curse of the unskilled:—
